I can say that it was worth it to get burnt out, because the things God did are worth giving my life to. Because I and others went to the Moloko, they now have the Gospel of Mark, the Book of Jonah, a draft of most of the Gospel of Luke, the Ten Commandments and a few Bible stories published, as well as primers and story books, and learning so that some can read and write anything they want. The translators are now capable of working in the future more independently.

President, Treasurer & Secretary of the Moloko translation committee read new publications.

The revisers have learned to read Moloko and are learning how help the translators do a good job of translating the message of the Bible (right: two revisors read Moloko Scripture).

Dianne Friesen

Dianne Friesen works as a linguist/translator among the Moloko in Cameroon, helping them develop their language and helping Moloko churches to translate the Bible into Moloko. She is a Strategic Associate of CBM working with Wycliffe Bible Translators.

W5 on Missions

Who... June & Pablo Castellon

June Castellon, a Strategic Associate missionary under Canadian Baptist Ministries, serves as the school nurse at Carachipampa Christian School (CCS). CCS is a Christian school under SIM (Serving In Mission) for Bolivians, international students and missionary children. June also works alongside her husband Pablo as he pastors the Vinto Baptist Church near Cochabamba.

Where... Cochabamba, Bolivia

When... In 1979, June went to Bolivia where she was involved in community health and evangelism. She met Pablo in her second term. They married in 1986 and their two children, Eliana and Arturo, were born there. Pablo has pastored since 1972 under the Bolivian Baptist Union, the National Church organization which CBM works alongside of in Bolivia. June began volunteering in the library at Carachipampa Christian School when Eliana began studies there in 1991 and since 1993 has served as school nurse.

What... The **Vinto Baptist Church** celebrated its 61st anniversary in March. There was an Easter baptism of 1 teen, 6 young adults and 1 adult. Part time pastor, Armando, works with the youth. The children's ministry has 30-60 attending. There is a ladies weekly meeting with 6-12 attending.

PRAY: for the 6 deacons who work alongside of Pablo; for the Sunday school teachers and children's program leaders; for growth of Christians and salvation of non Christians with whom Castellons work; for Mario Mendez - trained in Vinto last year and missionary to Mali, Africa.

The **Carachipampa Christian School** has 180 students (PreK - Gr12) with 30-40 workers serving as teachers and/or support staff.

PRAY: for solutions to difficulties being faced presently by the school; for graduates traveling to other countries to continue their studies; for more Christian teachers to feel the call to come to teach at CCS; for those preparing to come in August to CCS, including Eliana and her husband Craig Allin - he to teach high school Socials and English classes while Eliana is to serve as office assistant and in other capacities at school; for the Lord's provision for the financial support they will need to come under STM (the short term mission department) of CBM.

PRAY for Arturo and his wife Emily in Fredericton, NB, for his continued studies at UNB; for her as she works; for their involvement in the leadership of the Intervarsity Christian Fellowship group on UNB campus.

Pray that the swine flu will not come to Bolivia or other countries where there are many people with low resistance due to poor nutrition.

Pray that Bolivians will be able to live in peace and not in fear due to political and social problems.

Why... June had an interest in missions ever since she was young, inspired by John Keith's ministry. She responded to the need for missionary nurses in Bolivia. Through the years, she and Pablo have found it a joy to serve the Lord. They praise Him for His provision and faithfulness.
