ABW provides teams of two young adults and VBS curriculum at no cost to churches that do not have the leadership to carry out a VBS program. The young adults will receive training, and will be prepared to lead the VBS program, along with a mission component, at Baptist churches which apply to receive a team.

This will be a great opportunity for young, Christian adults who have a passion to teach children and youth, and who enjoy travel.

Upon employment, VBS leaders will be required to provide a recent criminal record/vulnerable persons check.
